Unification Can Bring Woes To District, Writer Says

by Jerry Heath

The question of unification has been debated throughout the Grossmont area for several months. Those favoring making one school district are still bombarding voters with arguments in favor of the Sacramento-promoted merger. Those still in doubt about how to vote next Tuesday because of conflicting and confusing promises might wish to consider these additional facts before the election.

Two weeks ago the State Board of Education approved a two-district plan in Ventura County. It is the first time that body has swerved from its one-district-only stand. But it would not approve a two-district plan for the Grossmont area!

Once unification becomes a fact there is absolutely no recourse.

Late last month, the California Senate voted a resolution calling for a complete study of the whole problem of unification under the present law. This was prompted by the failure of unification measures in district after district. As the people's representatives, one body of the Legislature, at least, is beginning to study what those whom they represent really want for their schools and children. But future laws won't change things once unification passes.

The superintendent of a large, new unified district in Northern California recently released a statement bemoaning the magnitude of problems with which he and the district are beset. The people were sold the idea of unification as a solution to all tax problems. It cost one million dollars to put all teachers on the high schedule, and 50% of them got no raise at all! More taxes are needed. Two tax elections have failed to date. The tax rate voted in with unification is far from adequate. Students and the community are suffering, along with the school employees. Special programs, operating in many districts, had to be dropped since, after unification, they could not be offered to all pupils in the far-flung "broke" empire.

New big districts inherit all the problems of growth, finances, communication, personnel, and curriculum. Grossmont would be the 7th largest dictrict in California!

Those larger, it should be noted, are all regular cities like Los Aangeles, San Diego, San Francisco, and Oakland, complete with long-established city governments. True, they are large, but they grew into their present sizes gradually, absorbing the majority of size problems as they grew. Grossmont would be the largest district ever formed by unification in California, and it would still have two separate city governments and many unincorporated areas.

San Juan, near Sacramento, had 34,000 students when it was formed. It now has 51,000 students and almost as many problems. There are 164 unified districts in this state. The median size of these districts is 4,000 pupils. Eighty-two districts are larger; 82 are smaller.

Possible Glue-Sniffing 'Ring' Found

Sheriff's Department deputies, acting on a tip from a local resident, found evidence of a glue sniffing "ring" last week in a canyon back of Rockbrook St. in Spring Valley.

Investigating officers discovered a dozen glue tubes, some empty, along with paper sacks which had hardened glue in the bottom of them.

Neighbors said the area is frequented by teenagers.

Ronald Reagan Easy Winner

Gov. Pat Brown (D) will face Ronald Reagan (R) in November following Tuesday's election which showed Brown's Democratic opponent, Sam Yorty, to have surprising strength. Reagan, too, showing great vote getting power, defeated George Christopher by a 2-1 margin.

Local candidate W. Earl Smart lost to R. H. Finch although he came in second in a field of four Republicans, all trying to be the one to unseat Democrat incumbant Glenn Anderson for the Lt. Governor's post. Anderson outdistanced Oceanside publisher Tom Braden and Lloyd Hand.

Max Rafferty remains Supt. of State Instruction.

In the 37th Congressional District, it will be Lionel Van Deerlin against Sam Vener.

For State Senate it will be Clair Burgener against B. E. Malloy.

In the 77th Assembly District Paul Sutherland will face

Group Here To Fight School Unification

Citizens for Emphasis on Basic Education urge a no vote at the Tuesday Grossmont Unification election, and call on all citizens to join with them in a sampaign to seek repeal of the Unruh Bill (AB 145) in the next session of the Legislature.

"The overwhelming rejection of unification proposals throughout the State is evidence that the chances of repeal of the bill next year are excellent," said F. L. Wade, CEBE President. "We must not be stampeded into voting away our local control of schools in an election that has been forced upon us ba a "big-government bureaucracy" which uses bribes ($15 per child-of our own money — if we unify), threats and intimidation (loss of certain funds — also our money — and the burden of continuous elections until we surrender) to force us to give up our control. Nor should we be decided by the false promises of lower costs and greater efficiency", said Wade.

CEBE is concerned with the prospect of increased bussing of pupils over long distances, as a result of eliminating of elementary school boundaries and the need to equalize class sizes in the huge district. This would increase the cost of transportation, as well as increase the hazard (and insurance rates) with many more children being bussed over dangerous roads. Teachers also might be forced to transfer to schools in areas so remote from their homes that they would be forced to resign.

Equalization of teachers' salaries would cost more than would be gained by the $15 per child 'carrot' being offered; equalization of facilities, special equipment, special courses, etc. for the entire district would be another burden. A tax-override election would soon follow unification here, just as it has in the other districts that have unified.

Citizens for Emphasis on Basis Education organized to encourage a stronger emphasis on basic subject matter and to support grassroots local control of our children's education," said Wade, "obviously the unification of ten districts into a monster district under one seven-man board would destroy all parent-control over education."

Men's Club To Hear About Student Unrest

Sandy Cunningham, a Grossmont College student, will be the guest speaker Friday at the Lemon Grove Men's Club noon-luncheon in Michael's Restaurant.

She will speak on the problems of student unrest in colleges and universities. Miss Cunningham was a student at the University of California at Berkeley when the Sproul Hall riots broke out.

A short business meeting will also be held. It is important that all members of the club attend this meeting, president James Dorman said.

Last week Stephen Gardella, a candidate for County Sheriff, spoke and told the Men's Club members about "fallacies in the administration of the County Sheriff's Department."

He highlighted his speech with comments about recent narcotics deaths in the County jail.

LG School Board In Salary Study

Trustees of the Lemon Grove school district took a look at the 1966-67 salary proposals, then thumbed through elements of the preliminary budget for the same period of time, grimaced, and decided to spend another meeting studying both problems.

The board did more than that actually. They heard representatives of the teachers salary study group at length. Because the budget depends largely on what salary expenditures will be, the budget part will be heard as soon as salary schedules are set.

The next meeting will be June 13 and it is expected that the board will have resolved salaries before the meeting is over.

L.G. CoC To Aid Brookside Mothers

The Lemon Grove Chamber of Commerce voted Tuesday to lend aid to the Brookside Mothers Club in cleaning up a draining ditch problem that has existed there for years.

The meeting was presided over by Bob Browne, vice president, substituting for Dr. Sam Smith who is vacationing.

Two new members were added to the chamber's growing roster. Stephen E. Tallion of the Garden Village Apartments, and Rex Wells, manager of the L. G. Moose lodge building officially became members at the meeting.

The next meeting will be July 12, it being postponed one week because of the July 4 holiday.

LG Lions Lead Colt League

The Lemon Grove Lions are in first place in the Mt. Helix View Colt League.

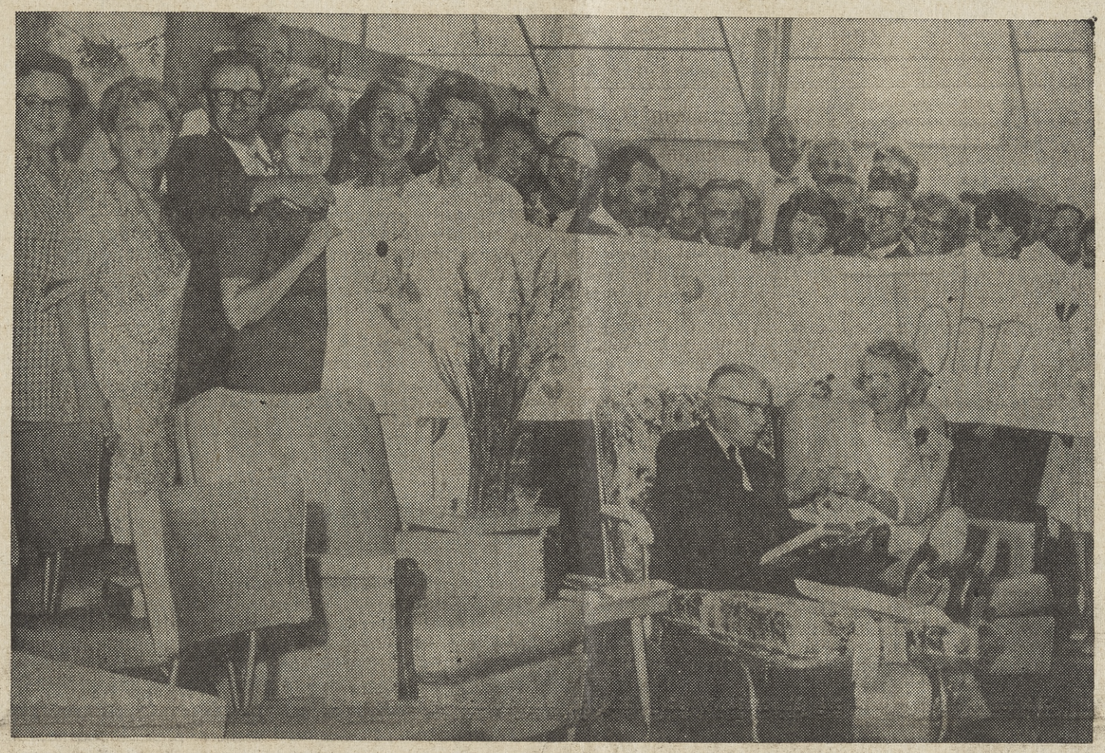
The Lions' record of four wins and two losses gives them a one-game margin over Ceter City Ford, 4-4.

In last week's play, the Lions smashed Center City, 15-3, scoring eight runs in the third inning. They lost to Taco Bell, 6-5, later in the week.

Grove Student Receives Degree

Ronald D. Tenison, son of Mr. and Mrs. Ralph Tenison of 1711 El Roy Dr., Lemon Grove, received the bachelor of arts degree in physics at Reed College of Portland, Ore., May 22.

Tenison was one of 149 graduating seniors who participated in the college's 59th commencement excercises.



FAREWELL TEA — John J. Kleinfelter, Mount Miguel High counselor, rests on a chaise lounge while his wife, Videtta, serves him a cup of tea during a faculty tea held for Kleinfelter Friday at the school. Kleinfelter will be retiring at the end of this semester after 40 years in the educational field.

Mount Miguel Counselor Retires After 40 Years In Educational Field

An educational career spanning forty years will come to an end next week when John J. Kleinfelter counsels his last student at Mount Miguel High School.

Kleinfelter, 60, who lives with his wife, Videtta, in Fletcher Hills, will be retiring from his counseling position at the Spring Valley school. He has taught and counseled in the Grossmont Union High School District for 12 years.

Kleinfelter attended elementary and secondary schools in Tiffin, Ohio. He received his Bachelor's Degree in social science from Tiffin's Heidelberg College in 1927 and entered the teaching profession immediately.

The Master's Degree in American History was bestowed upon Kleinfelter in 1930 from Ohio State University.

He went on to Bowling Green State College, Ohio, to take charge of teacher training in the social sciences. He remained in that capacity for 20 years before taking over as Director of Pupil Personnel for the Bowling Green City Schools.

In 1952, John and Videtta took a trip to California and became "sold" on this area. He contracted with the Grossmont District for a social studies teaching position at Grossmont High in 1954.

Kleinfelter moved on to El Cajon High in 1955 and taught along with part-time counseling there.

Mount Miguel opened in 1957 and Kleinfelter was appointed as freshman class counselor. This year's class of 1966 is the second group that he has taken all the way through the four-years of prep education.

Kleinfelter, who is the first faculty member to retire from Mount Miguel since its inception, has also been active in scouting and church work.

When he retired from scouting in 1960, he ended a 25-year period of service "which covered about every job possible in scouting." He was director of Organization and Extension in the Grossmont Scout Area, helping form many new scout troops.

Both Kleinfelters have assisted with Christian education work at San Carlos Methodist Church. Their future plans include the fostering of church-related community counseling.

Two of the offices Kleinfelter has held while at Mt. Miguel are president of San Diego Chapter of the American Personnel and Guidance Association and president of the Grossmont Counselors Association. He is a life member of the National Education Association.

The DIMMER VIEW

by MAX GOODWIN

Unification Uses Our Money To Take Away School Control

The nearest, dearest relationship the people have with government is with their school system.

And now that relationship is going to be wrecked.

The election on unification Tuesday, by which the district will be absorbed into a larger district — and eventually in a gargantuan district replete with bureaucrats — will take away from the school system, and from the children, that easy-going trust and faith that exists now in the smaller district.

So horrified are area residents becoming at the enormity of the crime being perpetrated via the Unruh Act that a growing group of leaders has already started a campaign to repeal the Act in the next session of the Legislature.

This group is hopping mad not only about the end result but by the method.

They're mad about big-government bureaucracy using the $15-a-child bribe of our own money.

They're mad about the threats and intimidation of losing our own money as part of the funds not available to ununified districts.

And they're mad about the terrible pressure of continuous elections with our own money, until we unify.

Seldom has there been such an offensive attempt to deprive citizens of their rights.

What is at the end of the Unruh-inspired rainbow?

Socialism, of course. And the worst kind there can ever be. Computerized socialism.

The day will come, unless it is stopped by throughtful parents and citizens, when each child will be a number. Whatever he does or whatever he becomes will be the result of his number being fed into a computor in Sacramento. Then there will be a dimishing need for teachers. With computors doing the grading, the planning and the programming, who needs teachers in the quantity we have them now.

Emasculating the importance of the teacher is almost as sad as computerizing the child for we know that sucssful humans are the sum total of the good qualities of his various teachers — teachers who exude love and who care.

We must lift our voices Tuesday to defeat unification and then turn our attention to erasing Unruh's AB 145 from our books forever.

ACS Pamphlet Is Informative

An American Cancer Society pamphlet entitled "Cancer and You" was mailed last week to residents of the Lemon Grove area.

The pamphlet is designed to provide local residents with facts that may help them save their lives, Harlan R. Youngflesh, Lemon Grove Crusade chairman of the American Cancer Society, said.

The Lemon Grove - Spring Valley Unit, American Cancer Society, provides many services to local cancer patients. Among them are: free surgical dressings, visiting nurses care at minimum or no charge.

Other services include sickroom equipment loan, such as hospital beds, wheelchairs, etc., free transportation to and from treatment centers, and speech therapy for those who have lost their larnyx due to cancer.

"It is very important for people to realize that the American Cancer Society is not just a fund raising organization, but that it helps people who need help," Younkflesh added.

"In San Diego County $315,310.00 in grants are now being supported by the American Cancer Society in our exellent research centers.

Great strides are being made against cancer, but, it takes a lot of money, and that is why we must support the American Cancer Society generously," Youngflesh concluded.

TIDIEST — Award for the tidiest drive-in restaurant in Lemon Grove and the second cleanest in the County was handed to Eric Fagan last week by John Borchers, manager of the San Diego Chamber of Commerce. Fagan, manager of Oscar's at 7441 Broadway for the past year and a half, ran second to a Jack-in-the-Box drive-in on El Cajon Blvd. at 47th St. 147 restaurants were in the competition. Fagan was given a plaque after two months of judging by the War Against Litter Committee, according to Harry La Dou, executive director of the Litter group. "The image of San Diego is formed at the first drive-in restaurant the visitor stops at," La Dou said. "That's why we recognize the important contribution these restaurateurs make in cleanliness." The competition is held annually.

The confirmants were: Robin Landholm, Glenn Macy, Betty Millard, David Nelson, Craig Shelton, Mark Storey, Donnadee Wentzel, Janis Williams and Deborah Wilson.

After the services, Mrs. Peg Crawford, president of the Lutheran Women's Missionary League, presented each with a red-covered copy of the Lutheran Book of Prayer. Joel Bowman, president of the congregation, and John Rhamey, chairman of the board of stewardship, also spoke to the new members and gave them materials concerning new responsibilities as Communicant members.

Projects done by the class during the course in Old Testament history, called "Tre People and the Promise," were displayed in the Sunday School during the coffee hour.

HISTORIC — Mrs. Frances Barkacke, of 3745 Citrus St., Lemon Grove, is author of a historical play being presented currently at the Whaley House. The play, "The Ballad of Yankee Jim," is based on the capture, trial and hanging of "Yankee Jim." In the photo is Mrs. Bardacke at the Yankee Jim historical marker. The play is exciting and has drawn complimentary reviews. The show's format is unusual in that the action starts with the audience (capacity 75) standing in the street in front of the Whaley House. The action moves into the courtroom where the audience is made part of the performancce, and finally, the audience is herded into the rear courtyard where Jim is hanged. An excellent cast of more than 35 persons make the show memorable.

San Diego County students are urged to apply for one of four March of Dimes health scholarships worth $500 each. Application blanks may be obtained by calling 296-3187.

Camp For Diabetic Children Opens Ninth Year This Month

A camp for diabetic children will be open for the ninth year at Camp DASC (Diabetic Association of Southern California), at Camp Conrad, Angelus Oaks, Calif. near San Berardino. The camp will have two periods: the first for those 12-years of age through 15, which will be held from June 26 throug July 8; the second group will be comprised of children from 7-years of age through 11 and will be held from July 10 through July 22. Campers are being accepted on a "first come-first serve" basis, or the date the application is received.

Purpose of this special camp is to provide diabetic children the same opportunities offered non-diabetic children, which helps erase the feeling of "being different." It teaches the child, through association with others like himself, to adjust and accept the limitations of his condition. The program at the camp is geared to the needs of the diabetic child, but provides all the physical activities usually included in the summer camp.

Parents of diabetic children, who attend Camp DASC, may be sure the child's physical needs are carefully checked by a staff of doctors, nurses and dietitions, who are carefully trained in the care of diabetes. Physical programs are set up to fit the child's ability, and insulin dosages are accordingly adjusted.

Total cost for the two-weeks camp is $80. A special rate has been set up for those who cannot pay the full amount. And for those who are unable to pay anything, there are funds available.

President of the San Diego Chapter of the Southern California Diabetic Association, is Mrs. William Subber, and her phone number is 465-8827. She said she will be glad to answer all questions regarding the camp.

Food Equipment Installation Begins At GJC

With recent Governing Board approval of a competitive bid submitted by Allied Sheet Metal Fabricators, Inc. of Gardena, work is scheduled to begin immediately on the installation of food service equipment in Grossmont College's Student Center.

Allied Sheet Metal Fabricators' bid of $110,000.00 was the lowest of six submitted for installation of food service equipment at the college.

Installation of the equipment, scheduled to be completed by September, will bring to the college facilities appropriate for both chef level and large quality food preparation and instruction as well as a complete food service business that will be operated within the food service management instructional program.

Grossmont College is presently the only San Diego area college offering a major in food service management that will lead to an Associate in Science degree. Courses in food service management began in September 1965 with the first group graduating, trained and ready to enter the food service management field in June 1967. RAMBLIN'

WITH ED LOOP

In the alley back of our store there is a solid fence about fifty feet long and on this fence

scrawled in chalk is a message we haven't seen in a long time. Two weeks ago it read, "I HATE DEBBIE." . . . no signature attached. This week it reads, "I HATE DEBBIE, LAURA AND JEANNIE," still no signature attached. Whoever hates these girls must be a good student, because the punctuation is perfect. We unobstrusively dropped a few sticks of chalk back there hoping to get some retaliation from the girls . . . but so far no luck.

Felt marking pens are becoming more popular all the time so we are having a special on a fine point marker; for the next few weeks the price is 30c each or $3.30 per dozen. This pen usually sells for 39c or $4.20 a dozen. Don't forget Grove Office Supply for your office needs; call us at 463-4494 or stop in at 7890 Broadway in Lemon Grove.

MECHANICS — Don Brackman, 18, and Stan Fish, 17, both Mt. Miguel High School student automobile mechanics, competed recently in the 18th Annual Plymouth Trouble Shooting Contest — the largest ever held in the history of the event — at the Great Western Exhibit Center in Los Angeles. The young mechanics competed against more than 300 of the finest student mechanics from the Southern California area.

LETTERS TO THE EDITOR

Dear Editor:

The Board of Directors of the Mountain Valley Taxpayers, Inc., after an intensive study on the issue of Unification for the Grossmont High School District with the nine elementary districts, voted their opposition to the plan.

It was felt the authority of the districts, as we now know them, would be lost.

Teachers could be shuffled around to areas where they may not be happy. Unification in other areas has not been in the best interest of the taxpayer.

Baccalaureate Exercises To Be Held For 538 Sun.

Baccalaureate exercises at Mout Miguel High School will be held Sunday at 7 p.m. in the Church of Jesus Christ of Latter-Day Saints of Spring Valley. This year, however, the program has taken on a more student-oriented look; both the cover and poems were written and designed by students.

Barbara Zimmer designed the cover both for Baccalaureate and graduation. Mrs. Vela Gwin, senior counselor, said, "This represents quite an achievment for Barbara because she is blind."

The inspirational poems on the back of the program were done by Les Rex, Tim Ruef, Vicki Hartwell, and Mary Derringer. J. Clifford Wallace, president of San Diego East Stake Church of Jesus Christ of Later-Day Saints will present the main address. The program will feature another student, David Schrage, singing "The Lord's Prayer."

For this year's 538 seniors, graduation ceremonies will continue the red-and-white, torchlight tradition of Mount Miguel. Ceremonies will begin June 16 at 8 p.m. in the Miguel Stadium.

Several existing traditions that will carry over into graduation exercises this year include accolades, California Scholarship Federation life-membership awards, senior class gift to the school, and the valedictory speeches given this year by Yolanda Alves and Cindy Vogt.

Junior Honor Aisle is one of the traditions set up to honor junior scholars. The chosen juniors form an aisle beneath torches through which the graduates pass. Only 20 couples are chosen from those with the 40 highest grade point averages; it is customary for these people to be in formal attire. The following couples are included this year: Sharon Butcher and John Bryant, Jackie Leatherman and James Christenson, Nona Lullen and David Cowan, Gwen McGarvey and James Kipp, Claudia Mansfield and Eugene Krazewski, Linda Minor and Mike Kreger, Susan Plummer and James Law, Patti Prince and Dan Panhorst, Linda Simpkins and Gregory Schaufler, and Ann Tibbits and Al Woodward.

LETTERS TO THE EDITOR

Dear Editor:

Who wants school unification and why?

Most small districts do not want unification for some very good reasons:

1. The loss of local control.

2. Higher cost which means higher taxes.

3. An extra large district like the proposed Grossmont District would not mean better education since anything over 25,000 pupils, the quality of education diminishes. Grossmont would be about 52,000 pupils.

4. Last but not least, the taxpayer doesn't like to be forced into anything by means of a mandated election.

Now we know who doesn't want unification and why. Who does want unification and why? Could it be the already large districts like Grossmont? Could it be the teachers who see a chance to get higher pay? Could it be the administrators of large districts who see a chance to build an empire at the expense of small districts? A few more questions that the taxpayer should have the answers to: How much money was each teacher asked to contribute for the passage of unification? What have these teachers been promised in return? Will the merit system that has been voted by the classified employees in some school districts such as Cajon Valley, be honored under unification. "County Council opinion dated 5-27-66 clarifies that there is no merit system in existance in the Grossmont Union High School District AREA which will be mandated for adoption by the new unified school district if it is formed by a vote of the people on June 14, 1966."

All self thinking people should analize these questions and vote no on unification on June 14th.

To the Editor
Sir:

I invite all your readers, all Californians, wherever they are, to contribute a rock to the building of the giant embankment of Oroville Dam, key unit of the State Water Project.

I suggest they select a small, smooth rock of any special significance, perhaps a souvenir that has survived long years, a rock brought home from a far shore, or one from the back yard, any rock of meaning to the individual.

They should make a record to accompany their rock and to identify it with their name and address and a description of the origin of the rock.

This record of the contribution will be sealed in a vault in the rock of the underground powerplant and kept in safety through the centuries "to a day when archaeologists will be employed to say who we were, we Californians who built the great dam."

Your readers should take their rocks to Oroville Dam June 25, when a new Construction Overlook will be opened, or any day thereafter through July 4. Or mail the rocks and records to State Water Project, Oroville, to arive by July 1.

Sincerely yours,
William E. Warne

THE WEEK IN SPORTS

La Mesa Collegians Face Busy Schedule

La Mesa Collegians manager Hal Doerr is a strong believer in getting his ballplayers in shape with hard work.

The former Pacific Coast League catcher has arranged for six exhibition-practice games in four days, beginning Saturday with a doubleheader against fellow-CCBL member San Fernando Valley.

The Collegians will take on Ontario, another CCBL team, in a doubleheader Sunday in Ontario.

La Mesa returns home to face the Breitbard Foundation City All-Stars, a team composed of the outstanding graduating seniors from San Diego City Schools, Monday evening at 8 p.m. on the Helix High diamond.

Tuesday night, the Collegians will face a similar County All Stars team at 8, also at Helix.

San Fernando will be in town Wednesday night for an 8 p.m. contest to start the CCBL's 1966 season.

Forty league games have been scheduled for the six-team league which includes La Mesa, San Fernando, Ontario, Downey, Escondido and Long Beach.

The present team roster lists 22 players, four of which will have to be dropped by Wednesday night. The CCBL limits a team to 18 players.

Competing for pitching spots will be holdovers Ron Dargo of San Diego State College, lefthander Al Layton of Grossmont College and Tom Lean III, also Grossmont JC.

Newcomers to the staff are Stanford's Daro Quiring, Southwestern's Dirk Van Dyke and Terry Williams, Rich Zinniger of Palomar College and Grossmont JC's Bill Lockhart.

Infielder returnees are Small Schools NCAA All-American shortstop Tom Thompson of University of San Diego and Jerry DaVanon of Westmont College. However, DaVanon was the first round choice of the St. Louis Cardinals in Tuesday's major league baseball draft, so it will be a question of whether he signs or not.

Chris Bradford of Santa Clara University and John Jackson of Southwestern are also vieing for team positions.

The club will probably carry only two catchers so returnee Bob Conen of San Diego State and Tom Dorsey of Iowa University and San Diego City College's Dan Sutton will be waging a tight race for these two spots.

Outfielders include Dave Duncan of Utah University, Steve Radulovich of Utah, Iowa State's Hubert J. Perkins III and Ralph Stewart of Nebraska's Midland College.

The league season ends August 28.

California Water Project Biggest in World History

(Editor's note: This is the sixth of a series of articles on the San Diego County Water Authority — its operation, history, relationship to water districts and the California Water Plan.)

The biggest aqueduct project of all time — bringing a total of 4,230,000 acre feet of surplus water a year to controlled, beneficial use in California — will culminate in 1972, at Perris Reservoir near March Air Force Base in Riverside County.

Water coming to San Diego by 1972 will be a combination of Colorado River and Feather River water. From Perris Reservoir and San Jacinto Reservoir, it will flow into the facilities of the 21 member agencies of the San Diego County Water Authority, which has been active as an official entity since 1944, working to accomplish its share of this incredibly huge engineering project, which has been the major prerequisite for Southern California's unprecedented quarter century of growth. San Diego County planning for this water actually began before the turn of the century.

The Metropolitan Wated District of Southern California of which the San Diego County Water Authority is a member (and the largest single-agency water user) is only one of the some 30 contractors for State Project Water but it is by for the largest.

It will bear approximately two-thirds of the total capital costs to be paid the State by all the contractors. Over the course of the 75-year life of the MWD contract, the total cost to it, including necessary enlargement of its own system, will run close to $6 billion.

San Diego County, which in recent years has completed $33 million in water facilities delivery consruction, this year is mounting a $30 million bond issue to finance construction of a water line 8 feet in diameter and over 30 miles long to connect the county system to the enlarged system of the MWD.

Under construction on the Feather River in the northern part of the state is Oroville Dam. The earth-rock-fill Oroville Dam is the cornerstone of the Feather River California State Water Project and it will stand 770 feet high when completed in 1968. It will impound 3,500,000 acre feet, or more than a trillion gallons — much of which is now wasting into the sea via the San Francisco Bay area and occasionally rampaging into floods that historically have brought death to people and wildlife and millions of dollars of destruction.

Oroville Dam will provide a means of controlled release of this water as needed down the channels of the Feather and Sacramento rivers.

Actual construction of the mile-wide dam at Oroville will require enough material to fill 1,500,000 standing railroad cars.

It is being constructed under the largest non-defense construction contract ever awarded competitively in the United States. The $120,000,000 contract was signed in August 1962.

Two big powerplants — one underground in the dam and the other downstream — will have a capacity of 759,000 kilowatts. Generation of electricity provides the project a means of recovering a significant portion of pumped storage costs.

Total estimated cost of the Oroville facilities is $468,000,000. The federal government is paying 22% of the construction costs, excluding power facilities, as a contribution to the flood control features of the project.

AQUEDUCTS — Heavy solid line between Perris Reservoir and Auld Reservoir indicates approximately $30 million in new facilities MWD is constructing for delivery of State Project water to San Diego County Water Authority agencies. Dotted line represents second "barrel" or pipeline and facilities of the second San Diego Aqueduct costing about $30 milloin with carrying capacity of 500 cubic-feet-per-second, which is greater than all three existing lines combined. Voters will be asked to approve $30 million bond issue on June 7 ballot to finance construction of the new facilities for Northern California water.

Traffic, Seating Are No Problem At Sports Arena

Dick White, public relations director of the San Diego Gulls Hockey team was the guest speaker at the June 1 breakfast-meeting of the Spring Valley Kiwanis Club. He showed artists drawings of and talked about the new International Sports Arena.

White said the arena is scheduled to open in November, and its first program will be ice hockey, with 36 home games scheduled. Also the arena will present "Holiday on Ice" and Icecapades, during 1967.

The San Diego International Sports Arena is a private business, with Bob Breitbard as president. The arena will cost approximately $6.5 million, White said, Work on the project has come along fast because of the pre-fab materials, White said, "every piece being marked." "It is just like putting together a jig saw puzzel he added.

The arena will be strictly for indoor activities, White explained. Within eight hours the place can be converted to take care of a new program. Besides hockey, there will be basketball, boxing bouts and many other events, including circuses and rodeos. The place can be reached from any part of the county within a half hour, White said, and commented that the adjacent " traffic circle" onto Rosecrans Blvd. and Mission will be straightened out shortly.

There will be four entrances to the arena and all seating will be off one level; no stairs or elevators. The place will be able to seat 16,000 and there will be parking space for 4,500 cars.

Canton Dr. To Be Improved

Second District Supervisor Henry A. Boney announced that the Board of Supervisors, by resolution dated May 31, 1966, approved the award of a contract to Daley Corporation for $13,256.50 for a road improvement on Canton Dr. from Skyline Dr. to Washington St. in Lemon Grove.

This 0.190 mile construction will widen the existing 18-foot roadway to 40 feet; one 12-foot driving lane; one 8-foot shoulder, and a 5-foot graded walkway, on each side.

Boney added that this would relieve congestion during the school traffic rush hour to and from Mount Miguel High School and provide a good connector road between Skyline Dr. and Washington St. The new asphaltic concrete surface will provide smooth riding and permit economical maintenance.

The Second District Supervisos stated that the contractor would commence work about mid-June, and complete the project about the end of July 1966. Inconvenience to the traveling public will be kept to the minimum. Funding for this project will be from the San Diego County apportionment of the Highway Users' Tax.

All of the said work hereinbefore generally described shall be constructed in the manner, to the grades at the locations, within the limits, of the materials, and of the dimensions as shown upon and in accordance with the plans, profiles, drawings, typical cross-sections and specifications therefor, contained in Document No. 373532, on file in the office of the Clerk of said Board of Superiors and copies of which are on file in the office of said Engineer, and by this reference thereto, all said plans, profiles, drawings, typical cross-sections and specifications are made a part hereof.

The said Board of Supervisors hereby determines and declares that serial bonds shall be issued to represent each assessment of Fifty Dollars ($50) or more remaining unpaid after the last date for payment of assessments, as specified in the statement provided by Section 5390 of the Streets and Highways Code of the State of California. Said statement shall be mailed to each property owner within the assessment dictrict at least thirty (30) days prior to the last date for payment of assessments. Said serial bonds shall extend over a period ending nine (9) years from the second day of January next succeeding the next September first following their date, and an even annual proportion of the principal sum thereof shall be payable, by coupon, on the second day of January every year following the next September first after their date until the whole is paid. Said bonds shall bear interest at rate of six per cent (6%) per annum, interest payable semi-annually, by coupon, on all sums unpaid until the whole of said principal and interest is paid; and said bonds shall provide that if said bonds are redeemed before maturity and before commencement of proceedings for sale, in addition to all other sums unpaid and accrued, a premium of five per cent (5%) of the unmatured principal shall be paid. Said bonds shall be issued and the principal, interest and premium shall be paid under and in pursuance of the Improvement Act of 1911 and amendments thereto.

The contemplated work and improvement hereinbefore mentioned is in the opinion of said Board of Supervisors, of more than local and ordinary benefit to the public and the expenses of such work and improvement are made chargeable upon the district hereinafter described, and said Board of Supervisors does hereby declare said district to be the district benefited by said work and improvement, and to be assessed to pay the costs and expenses thereof. Said district is described as follows, to wit: All that real property in the County of San Diego included within the exterior boundary lines of said district as shown upon that certain map bearing Improvement Act Area No. 174 indicating the exterior boundary lines of such district, which map, approved by said Board of Supervisors, is on file in the office of the Clerk of said Board of Supervisors of the County of San Diego as Document No. 373531, excepting therefrom all public streets, roads, alleys, avenues and highways. Reference is hereby made to the map for a full and complete description of the assessment district and the map shall govern for all details as to the extent of the assessment district.

The said Board of Supervisors has heretofore directed the Superintendent of Streets in accordance with Section 5254.5 of the Streets and Highways Code to include in the contract a provision for liquidated damages in case the work called for under the contract is not completed within the time limit as prescribed by the specifications and contract (or such extension of time as may be granted by said Board), and has fixed the sum of $50.00 per day for each and every calendar day's delay in completing the work in excess of the number of calendar days prescribed.

It is the opinion of said Board of Supervisors that the public interest will not be served by allowing the property owners to take the contract for the work to be done under these proceedings.

NOTICE IS HEREBY GIVEN that on Tuesday, the 21st day of June, 1966, at 11:00 o'clock a.m., in the chamber of the Board of Supervisors of the County of San Diego, Room 310, San Diego County Administration Center, 1600 Pacific Highway, San Diego, California, any and all persons having any objections to the proposed work or improvement, to the grade at which said work is to be done, or to the extent of the district to be assessed to pay the costs and expenses of said proposed work or improvement, may appear before said Board of Supervisors and show cause why said proposed improvement should not be carried out in accordance with this Resolution.

Such protest, if any, must be in writing and must contain a description of the property in which each signer thereof is interested, sufficient to identify the same, and shall be delivered to and filed with the Clerk of the Board of Supervisors of the County of San Diego, in Room 306 of said San Diego County Administration Center, not later than the hour hereinabove set for hearing. No other protests or objections will be considered. If the person signing the protest is not the owner shown on the last equalized assessment roll, the protest must contain, or be accompanied by, written evidence that such signer is the owner of the property.

The Clerk of this Board of Supervisors is hereby directed to cause this Resolution of Intention to be published twice in the Lemon Grove Review, the newspaper hereby designated for that purpose by this Board.

The Clerk of this Board of Supervisors is hereby directed to mail notice of the adoption of this Resolution of Intention, postage prepaid, to all persons owning real property proposed to be assessed, whose names and addresses appear on the last equalized County Assessment Roll, or as known to said Clerk, all in the time, form and manner required by law; if property assessed by the State under Section 14 of Article XIII of the Constitution is proposed to be assessed, such notice shall be mailed to every owner of such property at the address thereof shown on the last board roll transmitted to the County Auditor as required by Section 5070, Streets and Highways Code.

The Clerk of this Board of Supervisors shall, upon completion of the mailing of said notices, file with this Board an affidavit setting forth time and manner of the compliance with the above requirements for mailing such notices.

The Superintendent of Streets shall, after the adoption of this Resolution of Intention, cause to be conspicuously posted along the line of said contemplated work or improvement, at not more than three hundred feet (300') in distance apart, but not less than three in all, notices of the passage of this Resolution of Intention, all in the time, form and manner required by law; and thereupon said Superintendent of Streets shall cause to be filed in the office of the Clerk of this Board of Supervisors an affidavit showing the posting of said notices of improvement.

All of the herein proposed work shall be done in pursuance of an Act of the Legislature of the State of California, designated as the "Improvement Act of 1911" and amendments thereto.

PASSED AND ADOPTED by not less than a four-fifths vote of all members of the Board of Supervisors of the County of San Diego, State of California, this 17th day of May, 1966, by the following vote:
